- Part 252.2 - Solicitation Provisions and Contract Clauses
- Part 253 - Forms

On-Demand Programming

PCI offers two types of on-demand programming:

- eLearning – Tracked, interactive trainings delivered at your pace!
- Recorded Programs – Recorded copies of PCI live webinars.

eLearning vs Recorded Training

eLearning is self-paced training, in a managed environment. These trainings have interactive quizzes, tracking, and automated features. PCI's eLearning trainings are a learning environment that is fun, self-contained, and designed for an on-demand environment. PCI's eLearning can be enjoyed in your LMS or on our website!

Recorded Trainings are video files of live programs we have run in the past – while the polling questions can be seen, they cannot be interacted with. The program also moves at the pace of the original program – rather than the learner's pace.

eLearning Subscription

PCI's eLearning All-Access subscription contains all of PCI's eLearning trainings and the entirety of the Recorded Trainings Library. Currently 70+ on demand trainings are available totaling 200+ hours, and new classes are being added regularly. To sign-up for the *eLearning All-Access Subscription*, [click here](#).

Recorded Training Subscription

PCI presents the *Recorded Training Subscription*! This subscription gives you access to a *massive* library of recorded training. PCI's recorded training subscription can help you bring your team up to speed and keep them educated and entertained! To view a list of programs in the *Recorded Training Subscription*, [click here](#).

Lots of Options Available Online All for One Great Price

At \$495 per year (\$65 month), PCI's on-demand training is a great deal, and contains hundreds of hours of on-demand information relevant to any public contracting endeavor. PCI's on-demand subscription library includes public contracting essentials such as:

- Government Contracting Fundamentals
- Subcontracting Summit
- The Professor's Forum with Ralph Nash and Tim Sullivan
- Demystifying Intellectual Property/Data Rights in Government Contracting Series
- More than a four hundred other classes available in the library

PCI's library is deep enough that there will be a class relevant to you every time you need training. PCI is constantly adding new programs, lectures, and classes to the recorded training library. To learn more and sign-up, [click here](#).

The PCI Forum

2-5 Live Virtual Trainings added to the calendar monthly!

Negotiating Virtually

January 8; 11:00am-2:00pm ET (\$199)
